

5th International Workshop on New Photon-Detectors (PD18)

Wednesday 28 November 2018

Wednesday morning: Session 5 (Chair: F. Sefkow) (09:00-10:35)

time	[id] title	presenter
09:00	[42] Radiation hardness of SiPMs	Dr MUSIENKO, Yuri Mr HEERING, Adriaan
09:35	[43] Studies of radiation damage to SiPMs at low temperatures.	Mr HEERING, Adriaan Dr MUSIENKO, Yuri
09:55	[56] Gain Stabilization of SiPMs and Afterpulsing	EIGEN, Gerald
10:15	[64] Characterisation and temperature stabilisation of a system with 22000 MPPCs	Dr SUDO, Yuji

Wednesday morning: Session 6 (Chair: J. Kataoka) (11:05-12:05)

time	[id] title	presenter
11:05	[10] Development of a UV-transparent Lens Array Enlarging the Effective Area of Multi-channel SiPMs	OKUMURA, Akira
11:25	[58] Performance study of a large CsI(Tl) scintillator with an MPPC readout for nanosatellites used to localize gamma-ray bursts	TORIGOE, Kento
11:45	[41] Results of the Parallel Operation of Large-size SiPM Detector Modules and PMTs in IACTs	HAHN, Alexander
