

Effective Lagrangian for the Higgs

Friday 19 July 2013 15:30 (1h 30m)

I will discuss a general effective theory framework to describe the Higgs couplings to the rest of the standard model.

Then I will present the up-to-date constraints on the parameters of the effective lagrangian derived from the existing Higgs data and from electroweak precision tests.

Presenter: FALKOWSKI, Adam (Université de Paris-Sud)
