## Cosmic Cartography 2022: Exploring the Cosmic Web and Large-Scale Structure

## Friday 11 March 2022

<u>Day 5 Afternoon: Theory of the Cosmic Web</u> - Lecture Hall (14:00-18:00)

time	[id] title	presenter
14:00	Break	
14:40	[64] Mapping and characterisation of filaments and filament galaxies feeding clusters	KUCHNER, Ulrike
15:00	[65] Entangled in the cosmic web: probing the success of WEAVE in the extraction of cosmic filaments.	CORNWELL, Daniel
15:20	[66] Cloning the local Large-Scale Structure with constrained simulations	SORCE, Jenny
15:40	Break	
15:55	[67] Nuw Cosmology beyond the average from one-point statistics	UHLEMANN, Cora
16:25	[68] Better cosmological predictions with less effort	CHARTIER, Nicolas
16:45	[69] Cosmology with cosmic web environments	BONNAIRE, Tony
17:05	[70] Clustering statistics of Lyman-α forest beyond 2-point	MAITRA, Soumak
