

# Cosmic Acceleration

## Monday 17 February 2020

### Feb 17 Afternoon session I - Lecture Hall (13:30 - 15:00)

-Conveners: Fuminobu Takahashi

time	[id] title	presenter
13:30	[34] (Invited talk) The light dark matter search— what's going on at an MeV?	MELIA, Tom
14:00	[35] Searching for particle dark matter by cross-correlating gamma rays and large-scale structure	ANDO, Shin'ichiro
14:20	[36] Constraint on the nature of dark matter by high-resolution cosmological simulations and next generation spectroscopy observations	ISHIYAMA, Tomoaki
14:40	[76] The study on quantum gravity theory through polarization measurements of high energy gamma rays from gamma ray bursts	GUNJI, Shuichi
