

# Workshop on Very Light Dark Matter 2021

## Monday 27 September 2021

### Monday AM (10:00-12:30)

-Conveners: Masaki Yamada

time	[id] title	presenter
10:00	Opening remarks	
10:10	[8] ABRACADABRA-10cm: First Search for $< 1\mu\text{eV}$ Axions	WINSLOW, Lindley
10:50	[9] Axion-like particle dark matter and gravitational waves from topological defects	VITAGLIANO, Edoardo
11:15	Break	
11:25	[10] Dynamical friction from scalar dark matter	HELFER, Thomas
11:50	[11] Hunting Axions Using Astrophysical Observation and Quantum Metrology	CHEN, Yifan
12:15	[42] Axion dark matter search with gravitational wave detectors: ADAM-GD	NAGANO, Koji
