

Workshop on Very Light Dark Matter 2023

Tuesday 28 March 2023

Afternoon session-2 (15:20-16:40)

-Conveners: Yuko Urakawa

time	[id] title	presenter
15:20	[8] Probing Axions through Tomography of Anisotropic Cosmic Birefringence	GRECO, Alessandro
15:40	[7] Search for vector dark matter in microwave cavities with Rydberg atoms	GUÉ, Jordan
16:00	[29] Impact of HWP systematics on the measurement of cosmic birefringence from CMB polarization	MONELLI, Marta
