

# 10th International Workshop on Neutrino-Nucleus Interactions in the Few-GeV Region (NuInt15)

## Saturday 21 November 2015

### Summary (09:00 - 10:40)

| time  | [id] title                                                            | presenter           |
|-------|-----------------------------------------------------------------------|---------------------|
| 09:00 | [67] Summary 1 : Neutrino flux                                        | Dr FRIEND, Megan    |
| 09:20 | [68] Summary 2 : Systematics                                          | Prof. GRAN, Richard |
| 09:40 | [69] Summary 3 : CC and NC quasi-elastic scatterings                  | MCFARLAND, Kevin    |
| 10:00 | [70] Summary 4 : Pion production and the other inelastic interactions | Prof. ATHAR, Sajjad |
| 10:20 | [71] Summary 5 : Shallow and deep inelastic scatterings               | Dr MORFIN, Jorge    |

### Summary (11:00 - 12:35)

| time  | [id] title                                      | presenter                               |
|-------|-------------------------------------------------|-----------------------------------------|
| 11:00 | [72] Summary 6 : Low energy neutrino scattering | Dr KOSHIO, Yusuke                       |
| 11:20 | [73] Summary 7 : Electron scatterings           | Dr SAKUDA, Makoto<br>Prof. BENHAR, Omar |
| 11:40 | [74] Summary 8 : Generators                     | Dr TANAKA, Hide-Kazu                    |
| 12:00 | [75] Summary 9 : Future experiments             | Dr HARTZ, Mark                          |
| 12:20 | [76] Closing remark                             | Dr HAYATO, Yoshinari                    |
