

10th International Workshop on Neutrino-Nucleus Interactions in the Few-GeV Region (NuInt15)

Monday 16 November 2015

Theoretical issues of neutrino-nucleus interactions (09:30 - 10:30)

time	[id] title	presenter
09:30	[2] Modeling neutrino-nucleus interactions: status and perspectives	Prof. BENHAR, Omar
10:00	[3] np-nh ,MEC ,Nucleon Correlations and other sources of QE like events	Prof. NIEVES, Juan

Theoretical issues of neutrino-nucleus interactions (11:00 - 12:00)

time	[id] title	presenter
11:00	[5] Present Status of Theoretical Description of Single Pion Production in Neutrino -Nucleus Reactions	Dr RUSO, Luis Alvarez
11:30	[6] Nuclear Effects in Deep Inelastic Scattering and Transition Region	Prof. KUMANO, Shunzo
