

10th International Workshop on Neutrino-Nucleus Interactions in the Few-GeV Region (NuInt15)

Wednesday 18 November 2015

Pion production and other inelastic interactions (09:25 - 10:30)

-Conveners: Mohammad Sajjad Athar; Masashi Yokoyama

time	[id] title	presenter
09:25	[30] Experimental status of pion production at the accelerators in the few GeV energy region	Prof. MCFARLAND, Kevin
10:00	[34] Pion production at T2K	Dr CAO, Son

Pion production and other inelastic interactions (11:00 - 12:25)

-Conveners: Mohammad Sajjad Athar; Masashi Yokoyama

time	[id] title	presenter
11:00	[32] Pion Production in Neutrino - Deuteron Reactions	Prof. LEE, Tsung-Shung Harry
11:25	[33] Pion production off the nucleon	Dr ALAM, Mohammad Rafi
11:55	[31] Weak interaction induced two pion production from nucleon and nuclei	Prof. HERNANDEZ, Eliecer

Thursday 19 November 2015

Pion production and other inelastic interactions (09:00 - 09:50)

-Conveners: Mohammad Sajjad Athar; Masashi Yokoyama

time	[id] title	presenter
09:00	[35] Measurement of absorption and charge exchange of π on nuclear targets	Dr PINZON GUERRA, Elder S.
09:25	[36] Pion production in Wroclaw Neutrino Event Generator and its comparison with other generators	Dr ZMUDA, Jakub
