

# Open Meeting for the Hyper-Kamiokande Project

## Thursday 23 August 2012

### Photo-sensor Development - Lecture Hall (10:05 - 11:40)

-Conveners: Shoei Nakayama and Yasuhiro Nishimura, Chair: Akira Konaka

time	[id] title	presenter
10:05	[25] Hybrid Photo-Detector study at Kamioka	Dr NISHIMURA, Yasuhiro
10:30	Break	
10:55	[30] LBNE photosensor R & D including light collection options	SVOBODA, Robert
11:10	[7] Mechanical Performance of Large Format Underwater Photo-multiplier	Dr LING, Jiajie
11:25	[34] Photomultiplier Tube Glass Failure in Neutrino Detection: Challenges and Opportunities	Prof. SUNDARAM, S. K.

### Photo-sensor Development - Lecture Hall (13:00 - 13:30)

-Conveners: Shoei Nakayama and Yasuhiro Nishimura, Chair: David Wark

time	[id] title	presenter
13:00	[16] Photo-detector development for maximizing the overall photon detection efficiency	Dr RETIERE, Fabrice
13:15	[44] Development of a Large Area Photodetector with a Fast Phosphor Anode	Prof. IJIMA, Toru
