

Session Program

18-20 Feb 2016

**4th Annual Symposium of the Innovative
Area on Multi-messenger Study of
Gravitational Wave Sources**

**Session 8 (Public Subscription Research -
Part 3)**

Friday 19 February

13:30

Session 8 (Public Subscription Research - Part 3)

Session

13:30-13:50

Contributions to Statistical Methodologies in Gravitational Wave Data Analyses

Speaker

Shuheii Mano

13:50-14:10 2

Speaker

Daisuke Yonetoku

14:10-14:30

Neutron Stars in Scalar-Tensor Theories

Speaker

Terukai Suyama

14:30-14:50 4

Speaker

Kenta Kiuchi

14:50-15:10

Seeding Supermassive Black Holes in the Early Universe

Speaker

Takashi Hosokawa

15:10
