

Session Program

18-20 Feb 2016

**4th Annual Symposium of the Innovative
Area on Multi-messenger Study of
Gravitational Wave Sources**

**Session 12 (Public Subscription Research -
Part 4)**

Saturday 20 February

10:50

Session 12 (Public Subscription Research - Part 4)

Session

10:50-11:10 1

Speaker

Kentaro Somiya

11:10-11:30

Kiso Supernova Survey: Optical Followup Observations of GW Sources

Speaker

Masaomi Tanaka

11:30-11:50

Developing Fast-Repointing Framework for Future Satellites Based on the X-ray Dark-Baryon Survey Mission

Speaker

Shinaya Yamada

11:50-12:10 4

Speaker

Yuichiro Sekiguchi

12:10-12:30

Studying Optical Spectral Energy Distribution of Gravitational Wave Sources and Their Environments with 15-band Simultaneous Imaging

Speaker

Mamarou Doi

12:30
