

Session Program

18-20 Feb 2016

**4th Annual Symposium of the Innovative
Area on Multi-messenger Study of
Gravitational Wave Sources**

Session 4 A05 (Theoretical Studies - Part 1)

Thursday 18 February

16:25

Session 4 A05 (Theoretical Studies - Part 1)

Session

16:25-16:50

Dynamical Mass Ejection from Compact Binaries and Electromagnetic Counterparts

Speaker

Koutarou (RIKEN) Kyutoku

16:50-17:15

2D Supernova Simulations with Full Boltzmann Neutrino Transport

Speaker

Hiroki (Kyoto U) Nagakura

17:15
